

# School of Pharmacy Strategic Plan

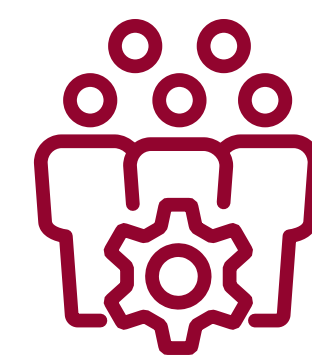

*Our paths for success*

## INNOVATE

Position the School to drive advancements in knowledge and innovation that improve health and health equity.

- 1 Increase the scale and scope of our resources to support research and education initiatives.
- 2 Invest in interdisciplinary and translational research by 2026.

## EDUCATE

Empower students and stakeholders to be change agents that meet society's evolving health needs.

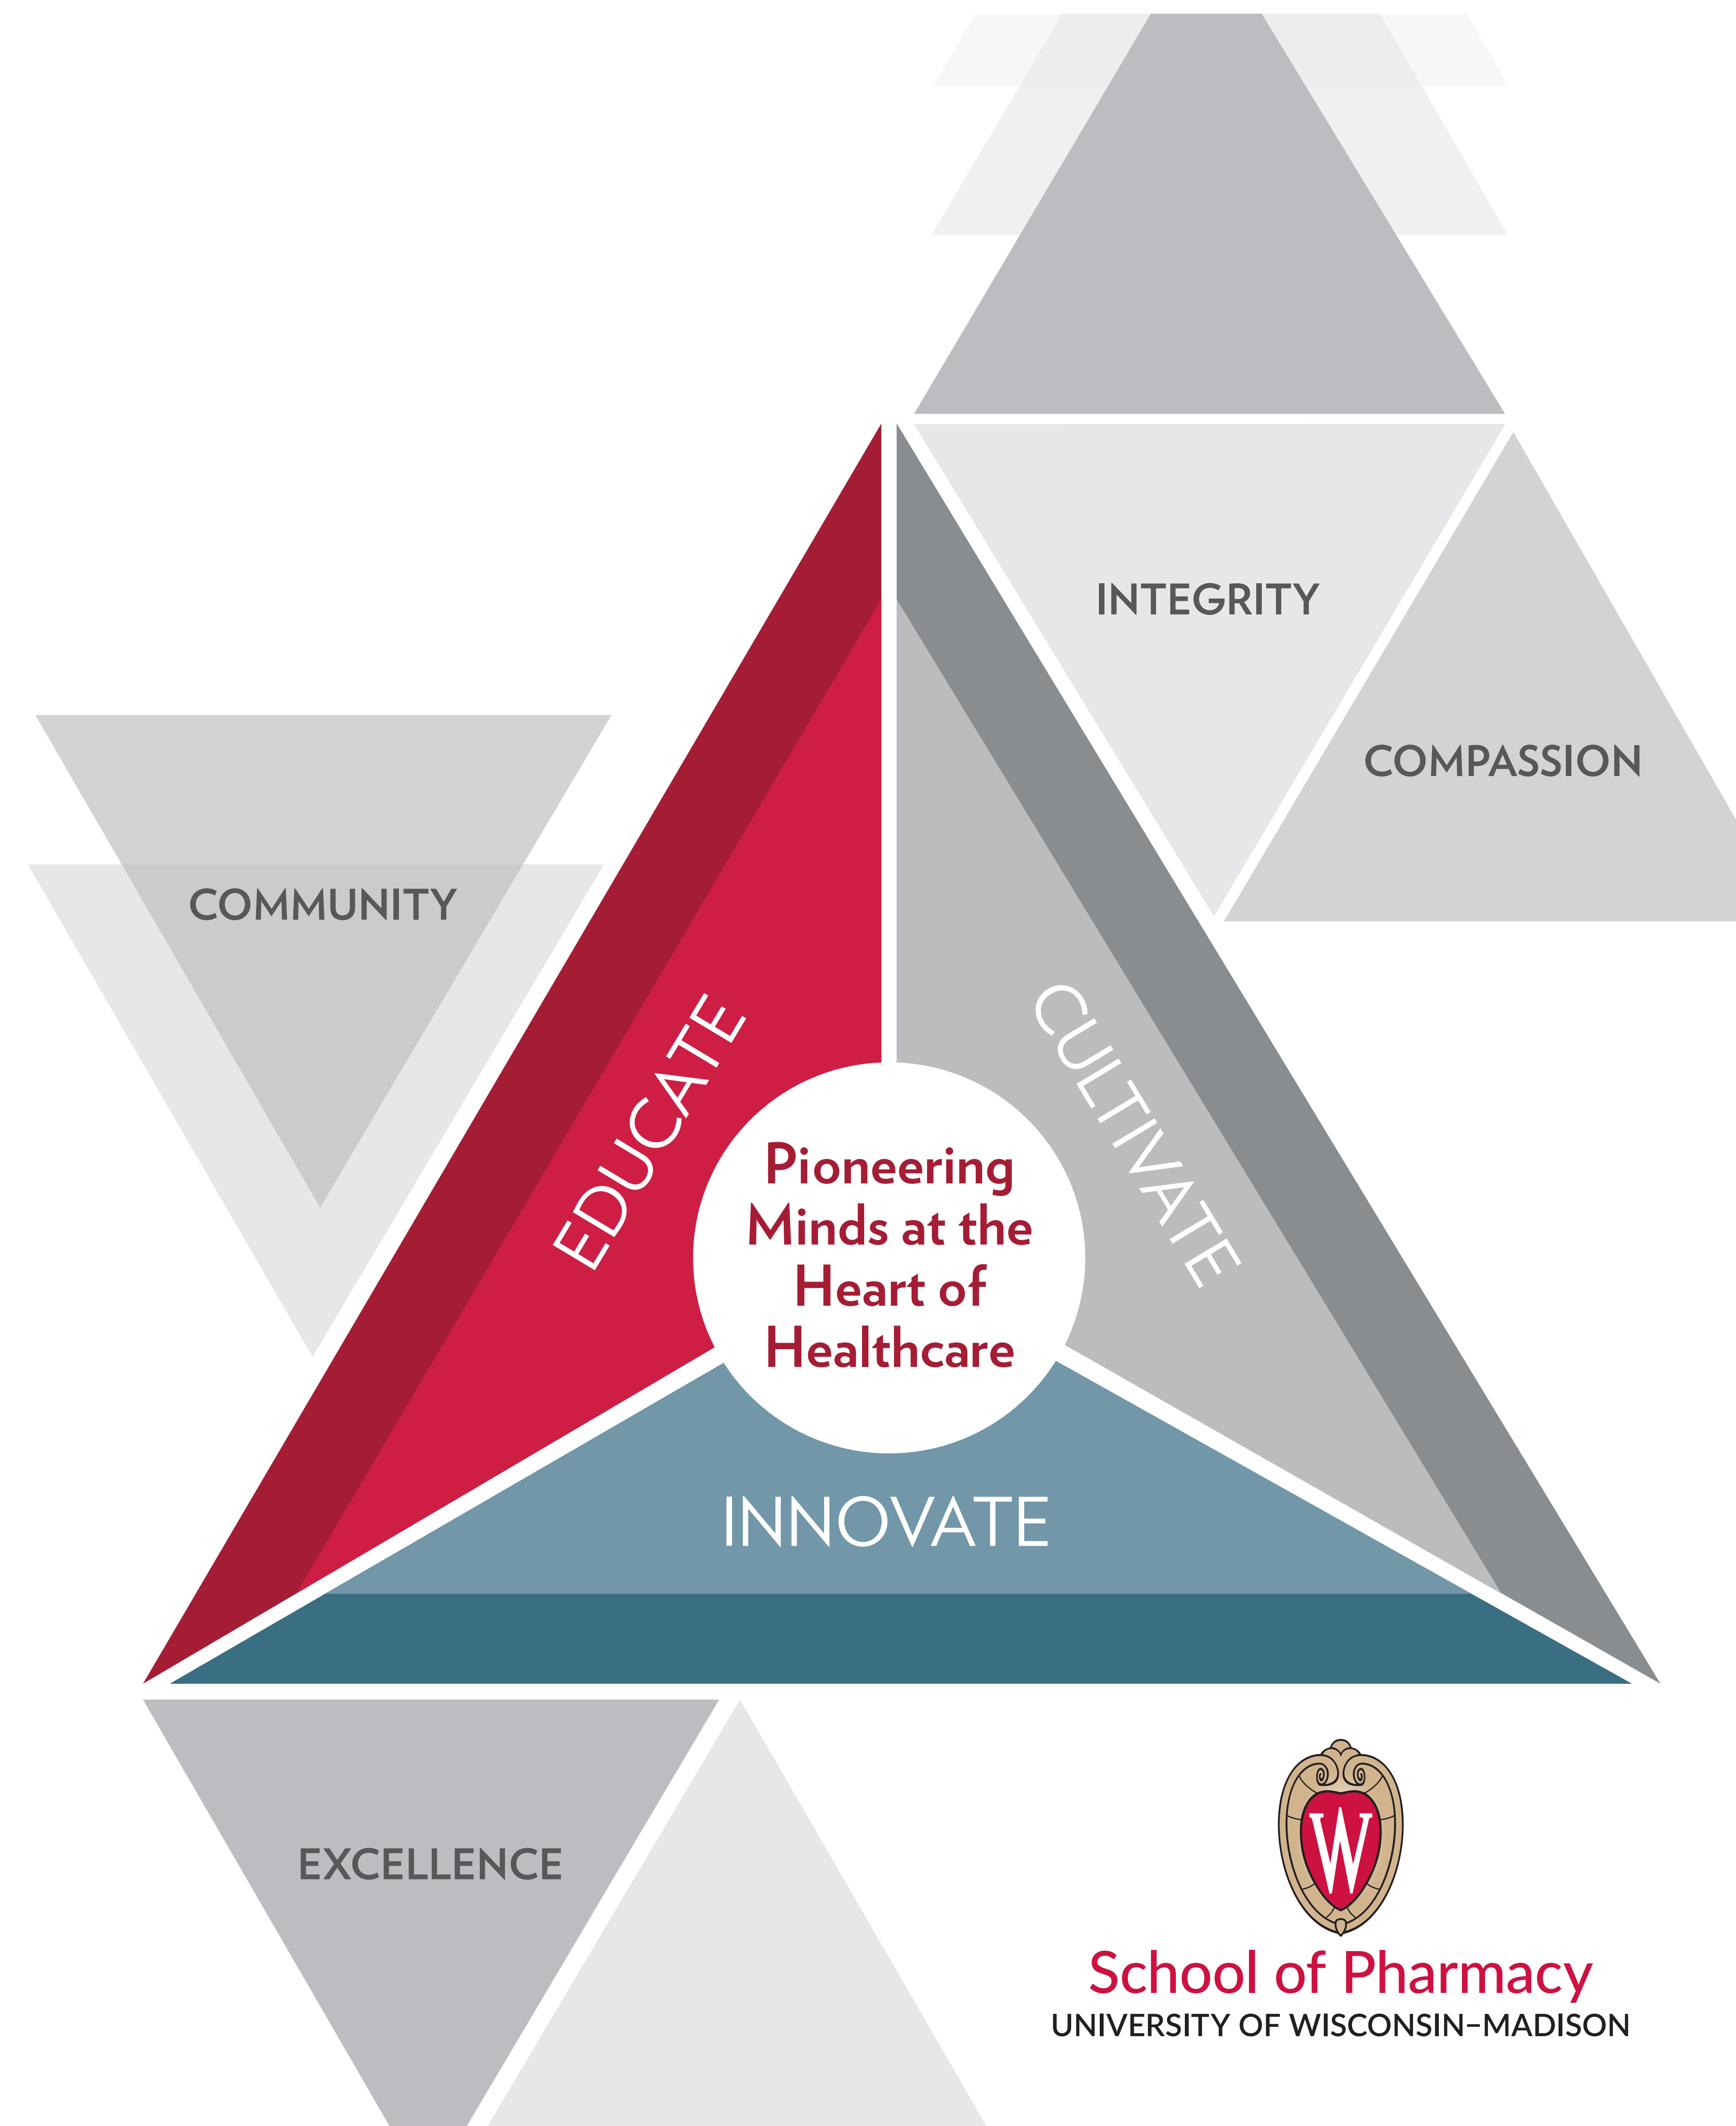

- 1 All PharmD students will be prepared to serve medically underserved populations by 2026.
- 2 Continuously evaluate the academic experience to ensure students are fully prepared to excel after graduation.
- 3 Ensure that teaching and assessment at the School of Pharmacy provide an equal opportunity for all students to achieve and demonstrate their full academic potential.

## CULTIVATE

Foster an inclusive community focused on inquiry, respect, diversity, and dedication to talent development.

- 1 Continuously work, with utmost priority, towards increasing the diversity of the faculty, staff, and student profiles.
- 2 Develop a system that provides dedicated personal development support for faculty and staff by 2025.
- 3 All faculty, staff, and students will demonstrate a growth mindset that promotes inclusion and well-being.
